

# Microtrash Madness

Your job is to collect bits of shell and bone for your chick. Be careful not to choose microtrash!!! If you fledge, you're a winner!

## DIRECTIONS:

1. Take turns choosing 3 objects from the tub. Condors use their sense of touch, not sight, to find the correct materials for their chicks to eat.
2. After "feeding your chick", draw one [Impact Card](#), and follow the directions. Adjust your score as directed. Now it is the next players turn.
3. Record how many pieces of microtrash you select. Record how many pieces of bone or shell you select. Return bone and shell after each round. Keep microtrash – chicks can't digest it, so it stays in their stomachs.
4. If you collect 5 pieces of microtrash, your condor chick dies - sorry, you are out of the game. All chicks that make it through 6 rounds go on to fledge – learn to fly
